

name

Name of the user original name modified to user# where # is unique identifier

start_time

Internet session started at this date time

usage_time

Time for which internet was being used before getting disconnected.

IP

IP address assigned to the device

MAC

MAC Address of the device

upload

Data upload in KB

download

data download in KB

total_transfer

Total data transferred in KB

seession_break_reason

Reason for internet session break.
