

#Question1

```
n=int(input("Enter number : "))
```

```
if n%2!=0:
```

```
    print("Weird")
```

```
elif n==2 or n==4 or n>20:
```

```
    print("Not Weird")
```

```
else:
```

```
    print("Weird")
```

#Question2

```
n=int(input("Enter no.of scores : "))
```

```
scores=input("Enter scores : ")
```

```
lst=[]
```

```
s=""
```

```
for i in scores:
```

```
    if i==" ":
```

```
        k=int(s)
```

```
        lst.append(k)
```

```
        s=""
```

```
    else:
```

```
        s+=i
```

```
